

Presentation of Owen Dack Memorial Award

November saw our Autumn Review and Social, which this year took place at Old Glossop Cricket Club. This occasion was an opportunity to bring together our staff, volunteers, Trustees and supporters, and share with them our Annual Review. During the evening we also made the inaugural presentation of the Owen Dack Memorial Award, in memory of the originator of PCrefurb, Owen, who passed away in 2024. The Award was presented by our Chair, Jon Spriggs, to Shaun Hammond, recognised for his steadfast commitment to the charity since its inception, having participated as a refurbisher, driver, Digital Champion and a support for new volunteers. Congratulations Shaun!

Goodbye to Sam

Sam Hardy, our Project Lead for the Access Digital Tameside and Digital Link projects, finished working for PCrefurb at the end of December. Sam worked tirelessly to establish comprehensive provision of digital skills support.

At the time of his departure 10 digital support groups were running across Tameside, and most continue. Sam was an incredible advocate for the importance of digital inclusion saying, "Every device, every session, every moment of guidance can change a life." We wish Sam well as he begins his training to become an Occupational Therapist.

October to December Statistics

Equipment referrals: 74
Equipment distributed: 282
Hours of skills training: 446

74.5 tonnes of CO2e saved.
That's the same as driving 37.3 petrol cars, or growing 3725 trees for one year!

Tameside Digital Champions Christmas Get-together

In December we held a get-together at Dukinfield Hub to celebrate and thank our wonderful Tameside volunteer Digital Champions. It was a fantastic opportunity to recognise all the time, dedication and heart they put into supporting our digital support groups across the borough. We were also delighted to welcome Lee Marks, Tameside Council's Digital Inclusion Officer.

Ellissa, one of PCrefurb's Digital Training Coordinators, summed it up perfectly: "We had a great turn out for our DC celebration and we are grateful for the volunteers in Tameside who put so much effort into helping our clients. Most of our volunteers were once clients themselves, participating in the digital skills training we offer, so having individuals who understand the process and the difficulties people face is really impactful."

Recycling

Constitutionally, it is a really important part of our work at PCrefurb to ensure that we recycle as much as possible. We don't have the capacity to advertise ourselves as recyclers, although we do ensure that any devices that we can't refurbish are sent to external companies to be stripped and the component parts recycled. However, we have been able to provide for our community the opportunity for residents to pass to us their unwanted household cables.

These could be, for example, old phone chargers, computer leads and appliance cables. These can be dropped off at The Bureau in Glossop and are then periodically collected by Greencable. We receive a small amount of money in return.

In Memory

In October, one of our founding Trustees, Tony Shelton, passed away. Tony masterfully took on the role of Secretary. PCrefurb's Chief Officer attended his funeral and spoke of him at our Autumn Review: "He was passionate about social justice," Helen said. "We were so fortunate to know him and benefit from his experience."

Support for Elastic FM

Last November, thanks to our partnership working with Rural Action Derbyshire, we were able to provide Elastic FM Community Media Organisation with four laptops and three desktop computers to support their community outreach work. They shared news of the donation on their website, which is available to read here.

High Peak Comps Donation

Christmas came early at PCrefurb HQ as we had the happy news that we had been selected via their 'charity wheel' for a donation of £500 from High Peak Comps!

PCrefurb was kindly nominated to go on the charity wheel by a supporter, for their twice weekly draw. Alex, a member of their team, popped in to see us in December.

It was great to meet him and he was keen to learn all about our work in the High Peak to support those who are digitally excluded. This donation is a fantastic boost to our work.
